

SECOND PUBLIC EXHIBITION NOTICE – BESS ENERGY STORAGE AT UPPER GREENFIELD, CUMINESTOWN

We invite you to attend a follow-up public exhibition for the Proposed Development of a 375MW Battery Energy Storage System (BESS), Substations and Associated Infrastructure and Landscaping, on Land at Upper Greenfield, Cuminestown.

Date: Monday 18th November 2024

Time: 3pm to 7pm

Venue: Cuminestown Community Hall, Main Street, Cuminestown, AB53 5YJ

Lower 48 Energy BESS Ltd is currently progressing a proposal for a BESS development at the site with the intention to submit a Section 36 Application under the terms of the Electricity Act 1989 at a later date. We aim to provide feedback at this exhibition to reflect previously received comments and views from our event held on 25 June 2024, and to present our updated proposals. We will accept any further comments until **2nd December 2024**. All comments will be recorded and addressed within our consent application submission. Formal representations, directed to the Energy Consents Unit can be made when a subsequent application is lodged.

You can view our proposals and provide comment via our dedicated project website at <https://uppergreenfields.lower48energy.com/> or by contacting us at uppergreenfield@blackhallpowis.com. Members of the Project Team will be happy to answer any questions at any time via the website or via email.
